**Contact Lens Services**

We take pride in prescribing high quality contact lenses to improve your vision and your lifestyle, however, *contact lenses are medical devices (regulated by the FDA) that can cause discomfort, infection, and even permanent vision loss.* New AND Existing contact lens wearers require additional time and testing (as required by the State of Tennessee) to minimize the risk of serious eye problems. For this reason, there are additional charges associated with new AND existing contact lens wearers. Please mark at least one of the procedures below and/or feel free to ask Dr. Anderson about your options at the beginning of your examination.
